August 13, 2021

## TO: CADA Board of Directors

## SUBJECT: August 20, 2021, Board Meeting <br> AGENDA ITEM 5 <br> ANNUAL AFFIRMATION OF DELEGATION OF INVESTMENT AUTHORITY TO THE CITY TREASURER

CONTACT: Noelle Mussen, Finance Director

## RECOMMENDED ACTION:

Staff recommends the Board adopt a resolution delegating CADA's investment authority to the City Treasurer for one year.

## BACKGROUND

At the May 1999 Board Meeting, the Board adopted Resolution No. 99-13 which establishes the procedure to be followed to ensure compliance with the requirements of California Government Code Chapter 749, Statutes of 1996 and Chapter 783, Statutes of 1995. This procedure calls for the Board Secretary to include the annual affirmation of the delegation of CADA's investment authority to the City Treasurer as a standing agenda item for each August Board Meeting. August was selected as the month to annually affirm this delegation because the investment activity report for the period ending June $30^{\text {th }}$ (the end of CADA's fiscal year) would be available to the Board for its review.

An Investment Officer from the City of Sacramento will provide a presentation on the City's investment practices at the Board Meeting.

## POLICY ISSUES

Section 10(b) of CADA's Joint Powers Agreement designates that the City Treasurer shall serve as CADA's Treasurer. In accordance with that direction, the City Treasurer has performed these services since CADA's creation in July 1978.

Under State legislation enacted in 1995/1996, actions required of a Treasurer and the governing board it serves are as follows:

## Governing Board -

- Shall annually consider the Treasurer's investment policies and any proposed change or revision.
- Shall annually delegate authority to the Treasurer to invest or reinvest agency funds and to sell or exchange securities purchased for a period of one year. Said responsibility shall continue until revoked or a one-year period expires.

Treasurer -

- Shall submit a monthly/quarterly investment report of transactions to the Governing Board.

Each August, after review of the City Treasurer's investment policies and any proposed changes and revisions, the CADA Board reaffirms the delegation of investment authority to the City Treasurer until it is revoked or a one-year period expires. Because the one-year period of investment authority awarded at last year's August meeting will expire on August 31, 2021, action at the August 20, 2021 meeting is required.

The resolution proposed for action at this meeting also requires the City Treasurer to provide CADA evidence of City Council approval of any investment deviations from California Government Code Sections 53600.5 and 53601 prior to the purchase of such investments. Attached for Board information is the current Investment Policy of the City of Sacramento and the Allowable Investments for Local Agencies (Attachments 1 \& 3). The current investment policy was adopted by the City Council was approved by the City Council at its July $20^{\text {th }}$ meeting. Staff was informed by the City Treasurer's Office that there were no changes to this policy. The Treasurer's Office has also advised that there have been no investment deviations from the above-referenced sections of the California Government Code or changes to the City's investment policy.

## FISCAL IMPACT

Schedule permitting, CADA's Finance Director attends each quarterly Investment Committee meeting held by the City Treasurer. At these meetings the activity for the various investment pools managed by the Treasurer is reviewed. CADA's participation in the City Treasurer's investments is limited to City Investment Pool A. As noted in the Investment Activity Report for the period ending June 30, 2021 (Attachment 2), Pool A's market value was $\$ 1,522,154,690$. CADA's participation in this fund includes $\$ 20,755,525$ of General Operation investment; $\$ 39,084$ of Tax-Exempt bond proceeds; $\$ 266,448$ of 2016 Taxable bond proceeds; and $\$ 30,185,679$ of 2020 Taxable bond proceeds for a total of $\sim .0337 \%$ of the pool.

Monthly Investment Activity Reports for Pool A are transmitted to the Board as part of each Board package. Interest earnings are credited to CADA's account on a monthly basis. For the procurement of the City Treasurer's services, the City bills CADA a nominal fee of $2 \%$ of the average quarterly balance each quarter.

## STRATEGIC PLAN

By ensuring that CADA's invested funds are prudently managed consistent with a Board-adopted investment policy, the proposed action addresses CADA's Strategic Plan Goal to "maintain fiscal responsibility."

## ENVIRONMENTAL REVIEW

Not applicable.

## CONTRACT AWARD CONSIDERATIONS

Not applicable.

## RESOLUTION NO. 2021-0229

Adopted by the Sacramento City Council

July 20, 2021

## Approving the Investment Policy Governing the Investment of City's Pooled Treasury Funds and Delegating Investment Authority to the City Treasurer

## BACKGROUND

A. Sound investment practices are facilitated by the preparation of written governing policy statements. Such policies should cover all substantive aspects of the investment of funds. The City Treasurer has prepared a comprehensive Investment Policy document pursuant to which the City, acting through his office, will manage and conduct investment of the City's pooled treasury funds. The Investment Policy is attached hereto as Exhibit A.
B. In furtherance of the prudent management of the City's treasury pools, the Investment Policy is in compliance with State law provisions establishing investment objectives and setting forth permissible investment of public funds not required for immediate expenditure.
C. Section 73 of the Sacramento City Charter vests the City Treasurer with authority to deposit and invest funds of the City treasury, subject to the annual delegation of investment authority from the City Council to the City Treasurer pursuant to state law.
D. The delegation of investment authority and responsibility from the City Council to the City Treasurer will allow the City Treasurer and his staff to continue the prudent investment of the City's pooled treasury funds and the effective and efficient support of the City's efforts to meet its cash flow needs.

## BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

Section 1. The Investment Policy submitted by the City Treasurer, attached hereto as Exhibit $A$, is hereby approved.

Section 2. The City Council, pursuant to Government Code section 53607, delegates to the City Treasurer for a period of twelve (12) months the authority to invest the City's pooled treasury funds in accordance with the Investment Policy.

Section 3. Exhibit A is part of this resolution.

## Table of Contents:

Exhibit A - City of Sacramento Investment Policy

Adopted by the City of Sacramento City Council on July 20, 2021, by the following vote:

Ayes: Members Ashby, Guerra, Harris, Jennings, Loloee, Schenirer, Valenzuela, Vang, and Mayor Steinberg

Noes: None

Abstain: None

Absent: None

Attest: Mindy CuDPy Digitally signed by Mindy Cuppy
Date: 2021.07.26 14:07:13-07'00'
Mindy Cuppy, City Clerk

The presence of an electronic signature certifies that the foregoing is a true and correct copy as approved by the Sacramento City Council.

## Exhibit A

## CITY OF SACRAMENTO INVESTMENT POLICY

The purpose of this document is to set forth the investment and operational policies for the management of the public funds of the City of Sacramento. These policies are designed to ensure the prudent management of public funds under management by the Sacramento City Treasurer.

Although the Sacramento City Charter generally provides the City Treasurer with the authority to deposit and invest funds in the City Treasury, undertaking of the investment activities by the City Treasurer is subject to the annual delegation of investment authority from the City Council as the body being primarily responsible for the investment of City funds. Accordingly, these policies are applicable to the management of City treasury funds as that task may be delegated to the City Treasurer.

A copy of this policy statement will be provided to all investment brokers and dealers and others in related fields doing business with the City of Sacramento, and will be provided to other interested parties on request. In addition, this policy statement will be posted to the City Treasurer's page of the City's internet website.

An entity retained to provide investment-related services to the City of Sacramento shall not render services unless and until it confirms, in writing, that it has received and reviewed this policy statement, and is prepared to implement its terms, as applicable to the services to be provided by the entity.

## I. Governing Authority; Scope

Section 73 of the Sacramento City Charter vests the City Treasurer with authority to deposit and invest funds of the City treasury, subject to the annual delegation of investment authority from the City Council to the City Treasurer pursuant to Government Code section 53607. These policies shall apply to the City Treasurer's investment of City treasury funds.

The City Treasurer investment program for all treasury funds shall be operated in conformance with applicable federal, state, and other legal requirements. This policy statement is intended to conform to Government Code sections 53600, et seq, and interpretation of these policies shall be consistent with those statutes.

## II. Objectives

## A. Primary Objectives

The primary objectives of investment activities, in order of priority, are safety, liquidity, and yield:

## 1. Safety

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate credit risk and interest rate risk.
(a) Credit Risk. Credit risk is the risk of loss due to the failure of the security issuer or backer. The City will minimize credit risk by:
(i) Limiting investments to the types of securities listed in Section VI of this Investment Policy
(ii) Re-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with Section IV.
(iii) Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.
(b) Interest Rate Risk. Interest rate risk is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates. The City will minimize interest rate risk by:
(i) Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity
(ii) Investing operating funds primarily in shorter-term securities, money market mutual funds, the Local Agency Investment Fund ("LAIF") managed by the State of California, or similar investment pools and limiting the average maturity of the portfolio in accordance with this policy.

## 2. Liquidity

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). Alternatively, a portion of the portfolio may be placed in money market mutual funds or LAIF which offer same day liquidity for short-term funds.

The staff of the City Treasurer's Office shall (i) monitor the City's budget formation and approval process and (ii) actively engage with City staff to assess and manage cash flow needs of the City.

## 3. Yield

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the low level of risk being assumed.

Securities shall generally be held until maturity with the following exceptions:
(a) A security with declining value may be sold early to minimize loss of principal.
(b) A security swap would improve the quality, yield, or target duration in the portfolio.
(c) Liquidity needs of the portfolio require that the security be sold.
(d) Where the sale of the security to realize capital gains is advisable in the judgment of the investment officers.

## B. Other Objectives

## 1. Pooling of Funds

Except for cash in certain restricted and special funds, the City will consolidate cash and reserve balances from all funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration. Investment income will be allocated to the various funds proportionately based on their respective participation and in accordance with generally accepted accounting principles. The pooling of funds shall have no effect on the legal character of the pooled funds, i.e. funds whose use is restricted by law shall remain restricted and cannot be used as part of the City's general fund.

## 2. Local Considerations/Community Investments

Where possible, as a secondary objective, funds may be invested for the betterment of the local economy. The City Treasurer may accept a proposal from an "eligible local community institution" that provides for a reduced rate of interest provided that such institution documents the use of deposited funds for local community development projects. To qualify as an "eligible local community institution", the following criteria must be met:

- An eligible local community institution is defined as being headquartered in counties in and around Sacramento, including but not limited to Placer, El Dorado, Sutter, and Yolo.
- To be recognized as an eligible local community institution the entity must have had a 5 star "Superior" Rating from either Bauer Financial or IDC Financial Publishing for the past 4 consecutive quarters. Eligible institutions must submit their quarterly ratings to the City Treasurer's office and maintain their 5-star rating continuously. If an eligible local community institution drops below the required 5-star rating, they will have 1 quarter to cure the deficiency. If in the following quarter the institution does not reachieve a 5-star rating with the same independent rating company, the City may withdraw funds allocated to that institution
- Institutions who receive deposits from the City as part of a local community investment not eligible for FDIC insurance must be secured by collateral of $110 \%$ as described in California Government Code Section 53651 and 53652.
- Institutions who receive deposits from the City as part of a local community investment must commit to invest $50 \%$ of the deposits in the local community, within the City of Sacramento City limits
- Institutions must provide a detailed semi-annual report to the City Treasurer's Office that shows evidence that the institution is meeting the $50 \%$ local community investment mandate on the City's deposits. If an institution cannot provide evidence that it has met the $50 \%$ local community investment criteria, the City may withdraw its deposits from the institution.
- As a matter of prudence, the amount the City Treasurer may invest in eligible local community institutions will be limited to $3.5 \%$ of the institution's total assets, as determined by the quarterly independent financial reports. If, during the course of an investment with an eligible local institution, the City exceeds the maximum $3.5 \%$ deposit level, the City may withdraw any funds in excess of the limit to cure the deficiency.
- The city may place deposits with eligible local community institutions up to a total of $10 \%$ of the total in the City's portfolio. If this amount is exceeded the City may withdraw funds from any institution to reduce the total community investment back below the maximum.

Although an eligible local community institution may meet all of the above stated criteria, it is not a guarantee that the City will maintain deposits. The City Treasurer retains the right to make deposit and withdrawal decisions based on the Primary Objectives of the Investment Policy stated above.

## 3. Favored Investments

Investments are encouraged in entities that have demonstrated significant commitment and cooperation (a) with foreclosure prevention efforts, including, without limitation, temporary moratoriums on foreclosures, renegotiation of the principle mortgage balances to reflect current values, and other good faith negotiations with homeowners in regard to delinquent mortgages, and/or (b) in offering free or low-cost banking services to low- and moderate-income residents who are part of the traditionally "unbanked" or "under-banked" population. The City Treasurer may take into consideration the level of effort an entity expends in either the foreclosure relief or community banking areas, or both, when considering competing investments. If the City Treasurer is satisfied with the record of an entity in regard to such efforts, then the Treasurer's investment staff may invest in the securities of the entity, provided that the investment is otherwise consistent with the requirements of this Investment Policy statement.

## III. Standards of Care

## A. Prudence

In accordance with Government Code section 53600.3, the standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures developed by the City Treasurer and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided extraordinary deviations from expectations are reported by subordinate investment officers to the City Treasurer in a prompt fashion and that the sale of securities is carried out in accordance with the terms of this policy.

Pursuant to the "prudent person" standard, investment officers shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency. Funds shall be managed not for speculation where the sole goal of a transaction is to increase principal balances, but for investment intended to earn a reasonable rate of return on invested funds, considering the probable safety of their capital as well as the probable income to be derived. Despite that investment transactions are undertaken with care pursuant to the "prudent person" standard, it is recognized that invested funds are subject to the vagrancies of the markets beyond the control of the investment officers.

## B. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and investment officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

Investment officers shall file State Fair Political Practices Commission's Statement of Economic Interests and make the disclosures required by the City's conflict of interest policies.

## C. Delegation of Authority

Authority to manage the City treasury investment program is granted to the City Treasurer pursuant to Sacramento City Charter section number 73, unless the Charter specifically indicates otherwise, subject to annual delegation of investment authority by the City Council pursuant to Government Code section 53607. Pursuant to the City Charter, the City Treasurer also is authorized to appoint deputies and employees, as prescribed by Council resolution, to implement the investment program. The City Treasurer and those employees appointed by the Treasurer to perform investment activities pursuant to these policies shall be referred to herein collectively as "investment officers."

Investment officers shall act in accordance with established written procedures and internal controls for the operation of the investment program consistent with this investment policy ("Investment Procedures Manual"). Procedures should include references to: safekeeping, delivery vs. payment, investment accounting, repurchase agreements, wire transfer agreements, and collateral/depository agreements. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures manual. The investment officers shall be responsible for all transactions undertaken and shall establish a system of controls to regulate their activities.

## IV. Authorized Financial Institutions, Depositories, and Broker/Dealers

## A. Selection

Financial institutions and depositories involved in implementing the City Treasurer's investment activities are selected on a competitive basis in order to obtain high quality services by reliable, reputable and stable entities. The competitive process may be formal or informal, as determined by the City Treasurer in his or her discretion, with the objective of obtaining the quality of services necessary to serve the best interests of the City and relevant stakeholders, with services performed at competitive fees and rates. Such processes may occur from time to time by the City Treasurer's Office whether at the time the City Treasurer contracts for the general banking services or otherwise. The firm or firms providing investment-related services may or may not be, at the discretion of the City Treasurer, the same firm providing general banking services. Among the factors that the City Treasurer may consider in obtaining such services are (i) minimum qualifications pertaining to capacity, satisfaction of requirements to conduct required business, i.e. licenses, permits, registrations, certifications, etc.; (ii) capitalization; (iii) insurance and bonding; (iv) safekeeping and custodial experience; (v) status in good standing; (vi) ability and capacity of the firm to provide a full range of services as may be required by the City Treasurer; (vii) extent of the value added by an entity over the services provided by firms thenproviding investment-related services to the City Treasurer's Office; and (viii) other attributes as may be determined by the City Treasurer from time to time. The City Treasurer may determine the number and nature of firms to be retained to provide investment-related services based upon the volume of existing and projected investment work. Those firms that are selected to execute transactions on behalf of the City shall do so in a good faith manner and in the best interests of the City, and shall disclose to and advise the investment officers of material facts that bear upon the pricing of a given transaction order given by investment officers. All financial institutions executing investment transactions shall satisfy the requirements of Government Code section 53601.5. All depositories shall satisfy the institutional qualifications and security requirements described in Government Code sections 53648 et seq.

## B. Performance Review

All financial institutions and depositories shall maintain the qualifications and attributes deemed appropriate by the City Treasurer, including, but not limited to those enumerated in subsection A above, and shall perform their duties in a satisfactory manner. The City Treasurer, at his or her discretion, shall conduct periodic performance reviews to ensure the institutions and depositories are providing services in the best interests of the City.

## V. Safekeeping and Custody

## A. Delivery vs. Payment

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds.

## B. Safekeeping

Securities will be held by an independent third-party custodian selected by the City Treasurer. The inventory and value of cash and securities held by the custodian will be reconciled on a daily basis. The custodial institution shall annually provide a copy of their most recent report on internal controls in accordance with Statement on Standards for Attestation Engagements No. 18, or SSAE 18.

## C. Internal Controls, Investment Procedures Manual

The City Treasurer is responsible for establishing and maintaining an internal control structure designed to guide the activities of the investment officers to ensure that the assets of the City are protected from loss, theft or misuse. Details of the internal controls system shall be documented in the Investment Procedures Manual and shall be reviewed and updated annually, as needed. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. The internal controls structure shall address the following points:

1. Prevention of collusion
2. Separation of transaction authority from accounting and recordkeeping
3. Custodial safekeeping
4. Avoidance of physical delivery securities
5. Clear delegation of authority to subordinate staff members
6. Written confirmation of transactions for investments and wire transfers
7. Development of a wire transfer agreement with the lead bank and third-party custodian

Accordingly, the City Treasurer shall establish a process for an annual independent review by an external auditor to assure compliance with policies and procedures or alternatively, compliance should be assured through the City annual independent audit.

## VI. Suitable and Authorized Investments

## A. Investment Types

Allowable investments of funds not required for the immediate use by the City are limited to those described in Government Code sections 16429.1 (Local Agency Investment Fund), 53601 (investment of surplus), 53601.8 (certificates of deposit), 53635 (purchase of commercial paper by pools) and 53638 (bank deposits), as such statutes may be amended or renumbered from time to time. These allowable investments, and their permitted amounts and attributes, are set forth in a summary prepared and updated from time to time by the California Debt and Investment Advisory Commission ("CDIAC") entitled, "Allowable Investment Instruments Per State Government Code, Applicable To All Local Agencies," included CDIAC's "Local Agency Investment Guidelines" publication that may be located at http://www.treasurer.ca.gov/cdiac/LAIG/guideline.pdf

## B. Extended Maturities

The investment officers will observe the maximum maturity term of five years on various of the allowable investments. However, where a particular investment is found by the investment officers to be advantageous and consistent with these policies, but for a nominal exceedance of a 5-year maximum
maturity caused by effect of the security's issuance and maturity dates, or the settlement date of the transaction, or both, they are authorized to invest in the following obligations with remaining maturities of five (5) years, plus not more than thirty (30) calendar days: U.S. Treasury obligations, obligations of California or other states, California local agency obligations, U.S. Agency obligations and medium-term notes. The City Treasurer will provide notice to the City Council of such investments within periodic investment reports made to the Council. See, Section VIII.A. Pursuant to Government Code section 53601, investment officers shall not make investments in instruments with maturities longer than five (5) years, plus thirty (30) calendar days, without prior approval of the City Council.

## C. Securities Lending

The investment officers at their discretion may engage in securities lending activities pursuant to securities lending agreements (as defined in Government Code section 53601(j)(5)(D)) provided that the following are satisfied:

1. Securities lending transactions are to be governed by agreements entered into by the City Treasurer and the agent or agents the City Treasurer engages to perform such transactions provided that such agreements
(a) comply with the requirements of Government Code section 53601(j), and
(b) require the payment of cash collateral equal to or greater than $102 \%$ of the market value of the loaned security at the time of the loan.
2. The securities lending agreements may allow for the use of cash collateral for the reinvestment in securities that
(a) comply with the requirements of Government Code section 53601(j)(3)(D), and
(b) are securities whose direct investment is authorized by Government Code section 53601 and these policies,
(c) provided that nothing herein shall preclude the City Treasurer from entering into securities lending agreements that reduces the scope of investments made with cash collateral to something less than that allowed under subsections (a) and (b) above.

## VII. Investment Parameters

## A. Diversification

The City shall diversify its investment portfolio. To minimize risk of loss resulting from the overconcentration of assets in a specific maturity, issuer, or type of securities, all cash and cash equivalent assets in all City funds shall be diversified by maturity, issuer, and class of security. Diversification strategies shall be determined and revised on an ongoing basis by the investment officers for all funds covered by these investment policies. In establishing specific diversification strategies, these investment policies shall apply. The investment officers shall emphasize that portfolio maturities will be staggered to avoid undue concentration of assets in a specific maturity sector. Maturities selected shall provide for
stability of income and reasonable liquidity.
B. Cash Management Funds

1. Liquidity shall be assured through practices ensuring that the payroll dates and dates of large disbursements are covered through maturing investments or marketable U.S. Treasury bills.
2. Positions in securities having potential default risk shall be limited in size pursuant to the maximum limits set forth in Government Code section 53601. Such securities include the following: Commercial paper; negotiable certificates of deposit, and Banker's Acceptances.
3. Risks of market price volatility shall be controlled through maturity diversification.
4. Liquidity risk: Because of inherent difficulties in accurately forecasting cash flow requirements, a portion of the portfolio should be continuously invested in readily available funds such as LAIF, money market funds, overnight repurchase agreements, and/or marketable securities that can be sold to raise cash in one day's notice, to ensure that appropriate liquidity is maintained to meet ongoing obligations.

## C. Competitive Bids

The investment officers shall obtain competitive bids from at least two brokers or financial institutions on all purchases and sales of investment instruments executed on the secondary market for consideration in excess of $\$ 15$ million per purchase transaction.

## VIII. Reporting

## A. Investment Reports

The City Treasurer shall present to the City Council, the City Manager and the City's internal auditor monthly investment reports that include the transactions as required by Government Code section 53607.

## B. Marking to Market

For purposes of preparation of the investment reports, the market value of the portfolio shall be calculated. In defining market value, considerations should be given to the GASB Statement 31 pronouncement.

## C. Performance Standards

The investment portfolio will be managed in accordance with the parameters specified within this statement of policies. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. A series of appropriate benchmarks shall be established against which portfolio performance shall be compared on a regular basis. The benchmarks
shall be reflective of the actual securities being purchased and risks undertaken.

## IX. Policy Considerations

## A. Exemption

Any investment currently held that does not meet the guidelines of this policy shall be exempted from the requirements of this policy, provided that the City Treasurer may take steps he or she deems appropriate to address non-compliant investments in the best interest of the City and pool participants. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.

## B. Amendments

This policy shall be reviewed annually by the investment officers. Any change must be approved by the City Treasurer, followed by review and consideration by the City Council pursuant to Section X of these policies.
X. City Council Consideration of Investment Policy

This policy shall be reviewed and considered by the City Council on an annual basis pursuant to Government Code section 53646(a)(2).

## XI. Miscellaneous

A. Statutory References

All statutory references cited in these policies shall refer to the statute as it may be amended or renumbered from time to time.

RE: $\quad$ Minutes of Quarterly Investment Meeting held via Zoom on April 22, 2021

Attendees Present: John Colville, Stacy Hussey, Ryan Phelps, Shirley Tupaz, Katy Nguyen, Johnny Ea, Jason Bader, Osvaldo Lopez, Noelle Mussen, and Patrick Zalasky<br>The COVID-19 pandemic and the City's response has led to most staff working remotely since March of 2020. This meeting was held via Zoom, as will all subsequent meetings until staff returns to working on-site full time.

## 1) Cash Positions/Liquidity

The projected Pool A cash flow is adequate to meet expected obligations over the next six and twelve-month periods. If all non-City Pool A participants withdraw funds, the analysis shows an approximate $\$ 164$ million in excess cash for the next 6-months and an approximate $\$ 209$ million for the next 12 -month period. Hence, cash availability to all pool participants are adequately addressed for the coming six and twelve months.

In compliance with the City's Investment Policy, investment staff continues to maintain a great deal of liquidity to pay the City's bills, including payroll and debt service representing the bulk of the City's budget. Such liquidity is largely reflected in investments whose maturity dates match payroll and debt service liabilities due dates going 9 months into the future, plus the maintenance of substantial liquid reserves. The liability-matching strategy and liquid reserves provide a solid liquidity cushion to meet unexpected large expenditures and to provide the basis to make advantageous investments in longer term securities. As of the date of the investment committee meeting, the major payroll and debt service liabilities are funded with sufficient cash in pooled cash accounts, expected property and sales tax receipts, and cash generated by the maturity of specific investments through the end of December 2021.

## 2) Performance of the Pools

Investment staff updated the attendees on the performance of Pool A during the first quarter of 2020. The earned interest yield of Pool A for January, February, and March was $1.08 \%, 1.09 \%$ and $1.29 \%$, respectively. All monthly Pool A yields exceed the $0.36 \%$ yield earned by the State Treasurer's Local Agency Investment Fund (LAIF) and the $0.43 \%$ yield earned by the MediumTerm Fund managed by the Investment Trust of California (CalTrust).

Pool A performance compared favorably to the yields realized by the investment pools of various California Cities (See, Pool A -- Relative Performance), which reflects publicly-available information as of April 21, 2021.

The Yield Curve has steepened over the past year, but yields are very low in our investment window that goes out to 5 -year maturities. Yields on shorter commitments are very close to zero which has provided a challenge when looking for yield while maintaining the liability-matching strategy. Investments in cash and other liquid investments made up $36 \%$ of the pool on $3 / 31 / 21$, mostly due to the lack of spread between the yields produced by liquid investments (LAIF, CalTrust, etc.) and core investments like Agencies, Municipal Bonds, and Corporate Bonds. A decent amount of the agencies in the portfolio are acting similarly to cash investments, as their call dates bring certain redemption. In an effort to garner more yield for the portfolio, investment staff has used these call dates to target cash obligations. This strategy is a byproduct of current market
conditions and is something staff will continue to explore should conditions remain the same, as expected, over the next couple of years.

Investment staff has been able to adapt to the movements of the yield curve, adjusting the structure of Pool A to effectively meet the goals of liquidity and safety while also earning a solid yield that is ahead of the majority of municipal peers in California. Staff is always monitoring markets and news feeds to gather as much information as possible, primarily regarding the actions of The Federal Reserve Board and of Congress, whose policies and actions have the biggest impact on domestic fixed income markets. Domestic/global economic news and geopolitical actions from across the world also have an impact on fixed income yields and are monitored closely with regard to how they may impact markets in the U.S. Investment staff is diligent about using this awareness to meet all of the investment goals: Liquidity to meet the needs of all pool participants; Investment in highly rated issues that maintain a high level of safety; and, when available, healthy yields on issues that also meet one or both of the previous goals..

## 3) Bond Market Report; Investment Considerations

The yield on five-year bonds pushed upward in the first quarter of 2021 on the expectation that Democrats would push unprecedented levels of fiscal stimulus through Congress. Investors went running to equity markets to take advantage of the opportunity to take advantage of newly stimulated markets. As a result, the demand for fixed income investments decreased and yields increased (on some parts of the Yield Curve). Short-term rates (between 1-month and 3-years) remained low, as The Federal Reserve maintained a Federal Funds Rate near zero is continuing to inject around $\$ 120$ billion per month into short-term fixed income and cash markets in an effort to keep interest rates low and stable while providing the cash necessary to meet the needs of businesses who are looking for it. Yields on 5 -year Treasuries ended 2020 under $0.40 \%$, but quickly rose as news from Washington, D.C. focused on the trillions of dollars that would be part of the Democrat sponsored stimulus plan. Rates climbed above $0.80 \%$ when President Biden signed the first of his many planned rounds of stimulus. News of a potentially larger package to follow pushed the yield on 5 -year Treasuries above $0.90 \%$ by the end of March. Unemployment continued a steady decline as states and municipalities continued to open across the country. Differing views on how much danger the virus continues to pose influenced which locales opened and how freely their economies are operating. Texas and Florida took the lead in returning to more normal conditions, while here in California, things are still tightly being monitored with the economy opening back up much more slowly as the number of new infections, hospitalizations, and deaths fall daily. The Fed has a dual mandate of ensuring full employment and stable prices in our economy. According to multiple Fed presidents, they do not see full employment returning until sometime in 2023, nor do they see inflation getting near or above the targeted rate of $2 \%$ for at least that long. With that in mind, The Fed will continue their accommodation policy. The constant influx of cash into the market will keep short-term interest rates very low, with very little chance of major movement on the longer end (5-years) of our investment horizon.

Global economies are in much worse shape than ours, since most are not having much success obtaining or distributing vaccines to their general population. For that reason, many are not operating a full economic capacity which is leading to a massive influx of foreign cash into our investment markets. U.S. markets are the strongest and most stable, particularly in times of global crisis. This is great news for our equity markets, which have reached record heights over the past year. Larger companies that are publicly traded have done very well as they had the capital to adapt and meet the needs of consumers during the pandemic. Earnings reports have been strong nearly across the board and stock prices have surged. This is in contrast to the difficulty that small
businesses have faced, as many have closed after being shut down for a long period of time and/or trying to survive at much less than full capacity.

This Fed maintains that they are comfortable with the current strategy and will maintain it until there are clear signs that the economy is fully recovered. Recent Dot Plots indicate that interest rates will remain close to zero for at least the next 2 years. Even the most hawkish Fed presidents do not see the Federal Funds Rate nearing 1\% until sometime in 2023. The investment team, therefore, expects yields on Pool A and Pool D to remain stagnant for the next few quarters. It will work toward the main objectives of providing security for the pooled funds while maintaining the liquidity necessary to meet the needs of all pool participants. When there are opportunities, the team will work to boost yields, but not at the expense of the first two objectives.
4) Other business: None

Next Meeting: The next quarterly meeting is scheduled for Thursday, July 22, 2021 at 10:00 a.m. via Zoom.

# CITY OF SACRAMENTO INVESTMENT POOL A 

## MONTHLY REVIEW - JUNE 2021

## STRATEGY

The Fund is invested pursuant to the objectives and requirements set forth in the City's investment policy. The three objectives of the investment policy, in order of priority, are (1) the preservation of capital by the investment in safe instruments, (2) the liquidity needs of the City and pool participants so such parties will have access to cash when they need it, and (3) the maximizing of current income while remaining consistent with the other more important objectives. The City's investment policy incorporates applicable provisions of state law including, among other things, the prudent person standard and California Code Section 53601 pertaining to eligible investments.

June saw the U.S. economy strengthen, but not as quickly as expected. Production began to ramp up toward more normal levels, but other key indicators lagged more than economists thought they would. The most notable lag was in the labor market, as unemployment ticked up to $5.9 \%$ and only 850,000 jobs were gained. Both of those figures missed projections by a healthy margin. Economists are acknowledging that generous government benefits are likely the reason workers are not returning to their jobs. Many workers are living comfortably with the enhanced payments and have no incentive to return to the jobs they left last spring and summer at the height of the pandemic. Many states have acted to return the federal funds they are receiving for that program, thereby cutting their unemployed residents off from receiving them. California was recently the latest state to take this action. It makes sense that we should see employment numbers improve over the next few months. Inflation is another concern, with prices rising nearly $5 \%$ year-over-year. The Federal Reserve Board sees these prices increases as transitory in nature due to the economy's emergence from pandemic shutdowns and re-openings. Fed Chair Powell, in testimony before Congress, stated that the economy could see inflation in fits and starts over the next few months while production and supply chains work to get back to normal globally. Higher prices for good did nothing to frustrate investors as equity markets continued to rise steadily, reaching all-time highs toward the end of June. Interest rates on 5 -year Treasuries rose on the prospect of inflation, beginning the month just above $0.80 \%$ and ending it just under $0.90 \%$. Shorter-term rates remained flat, due to the massive amount of cash The Fed continues to inject into liquidity markets. The investment team will keep these issues in mind and continue to be focused on maintaining a portfolio built with high level names that will remain stable no matter what markets do over the next couple of years. It will continue to focus its bond buying around finding high quality issues that balance both duration and yield in the portfolio, thereby balancing risk and return as the markets react to the activities of the Fed, the adjustments to the markets caused by the policies adopted by the Federal government and its foreign peers, and the reactions of consumers to the news that comes out each day.

## MONTHLY REVIEW - JUNE 2021

## STRATEGY

The CADA funds are invested in the City of Sacramento's Pool A investment fund. The Fund is invested pursuant to the objectives and requirements set forth in the City's investment policy. The three objectives of the investment policy, in order of priority, are (1) the preservation of capital by the investment in safe instruments, (2) the liquidity needs of the City and pool participants so such parties will have access to cash when they need it, and (3) the maximizing of current income while remaining consistent with the other more important objectives. The City's investment policy incorporates applicable provisions of state law including, among other things, the prudent person standard and California Code Section 53601 pertaining to eligible investments.

A Sources: Sections 16340, 16429.1, 27133, 53601, 53601.6, 53601.8, 53630 et seq., 53635, 53635.8, and 57603.
${ }^{B}$ Municipal Utilities Districts have the authority under the Public Utilities Code Section 12871 to invest in certain securities not addressed here.
c Section 53601 provides that the maximum term of any investment authorized under this section, unless otherwise stated, is five years. However, the legislative body may grant express authority to make investments either specifically or as a part of an investment program approved by the legislative body that exceeds this five year remaining maturity limit. Such approval must be issued no less than three months prior to the purchase of any security exceeding the five-year maturity limit.

D Percentages apply to all portfolio investments regardless of source of funds. For instance, cash from a reverse repur-chase agreement would be subject to the restrictions.
E No more than 30 percent of the agency's money may be in bankers' acceptances of any one commercial bank.
F Includes agencies defined as a city, a district, or other local agency that do not pool money in deposits or investment with other local agencies, other than local agencies that have the same governing body.
a Local agencies, other than counties or a city and county, may purchase no more than 10 percent of the outstanding commercial paper and medium-term notes of any single issuer.
${ }^{H} \quad$ Issuing corporation must be organized and operating within the U.S., have assets in excess of $\$ 500$ million, and debt other than commercial paper must be in a rating category of " $A$ " or its equivalent or higher by a nationally recognized statistical rating organization, or the issuing corporation must be organized within the U.S. as a special purpose corporation, trust, or LLC, have program wide credit enhancements, and have commercial paper that is rated " $\mathrm{A}-1$ " or higher, or the equivalent, by a nationally recognized statistical rating agency.

1 Includes agencies defined as a county, a city and county, or other local agency that pools money in deposits or investments with other local agencies, including local agencies that have the same governing body. Local agencies that pool exclusively with other local agencies that have the same governing body must adhere to the limits set forth in Section 53601(h)(2)(C).

」 No more than 30 percent of the agency's money may be in negotiable certificates of deposit that are authorized under Section 53601(i).
k Effective January 1, 2020, no more than 50 percent of the agency's money may be invested in deposits, including certificates of deposit, through a placement service as authorized under 53601.8 (excludes negotiable certificates of deposit authorized under Section 53601(i)). On January 1, 2026, the maximum percentage of the portfolio reverts back to 30 percent. Investments made pursuant to 53635.8 remain subject to a maximum of 30 percent of the portfolio.

L Reverse repurchase agreements or securities lending agreements may exceed the 92-day term if the agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of a security using a reverse repurchase agreement or securities lending agreement and the final maturity dates of the same security.
${ }^{\text {M }}$ Reverse repurchase agreements must be made with primary dealers of the Federal Reserve Bank of New York or with a nationally or state chartered bank that has a significant relationship with the local agency. The local agency must have held the securities used for the agreements for at least 30 days.

N "Medium-term notes" are defined in Section 53601 as "all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States."

- No more than 10 percent invested in any one mutual fund. This limitation does not apply to money market mutual funds.

P A mutual fund must receive the highest ranking by not less than two nationally recognized rating agencies or the fund must retain an investment advisor who is registered with the SEC (or exempt from registration), has assets under management in excess of $\$ 500$ million, and has at least five years' experience investing in instruments authorized by Sections 53601 and 53635.

Q A money market mutual fund must receive the highest ranking by not less than two nationally recognized statistical rating organizations or retain an investment advisor registered with the SEC or exempt from registration and who has not less than five years' experience investing in money market instruments with assets under management in excess of $\$ 500$ million.
${ }^{\text {R }}$ Investments in notes, bonds, or other obligations under Section 53601(n) require that collateral be placed into the custody of a trust company or the trust department of a bank that is not affiliated with the issuer of the secured obligation, among other specific collateral requirements.
s A joint powers authority pool must retain an investment advisor who is registered with the SEC (or exempt from registration), has assets under management in excess of $\$ 500$ million, and has at least five years' experience investing in instruments authorized by Section 53601, subdivisions (a) to (o).
「 Local entities can deposit between $\$ 200$ million and $\$ 10$ billion into the Voluntary Investment Program Fund, upon approval by their governing bodies. Deposits in the fund will be invested in the Pooled Money Investment Account.
u Only those obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), and Inter-American Development Bank (IADB), with a maximum remaining maturity of five years or less.

# RESOLUTION NO. 21-31 <br> Adopted by the Capitol Area Development Authority 

August 20, 2021

## RESOLUTION REAFFIRMING ANNUAL DELEGATION OF INVESTMENT AUTHORITY TO THE CITY TREASURER

WHEREAS, California Government Code Chapter 749, Statutes of 1996, authorizes the legislative body of a local government to delegate its investment authority to the Treasurer of the local agency for a one-year period; and

WHEREAS, the Authority has reviewed the current City of Sacramento's Investment Policy; and
WHEREAS, the City Treasurer has informed the Authority that as it pertains to City Investment Pool A and public fund investments of the City of Sacramento, the City Investment Policy is generally consistent with California Government Code Sections 53600.5 and 53601 and that the City Investment Policy specifically requires City Council approval of any investment deviations from these government code sections; and

WHEREAS, the City Treasurer has informed the Authority that there have been no investment deviations from the California Government Code or changes to the investment policy since its adoption by the Board in August 2020.

NOW, THEREFORE, BE IT RESOLVED, by the Capitol Area Development Authority Board of Directors that the Capitol Area Development Authority delegates investment authority to the City Treasurer for the period of one year. The City Treasurer shall assume responsibility for the transactions until the delegation of authority is revoked or the one-year period expires.

BE IT FURTHER RESOLVED, by the Capitol Area Development Authority Board of Directors, that it delegates said investment authority with the understanding that:

1) The City Treasurer shall submit monthly reports of transactions and quarterly investment reports to the Authority.
2) When the City Treasurer deems that deviation from the California Government Code Sections 53600.5 and 53601 is prudent, prior to the purchase of such investments, the City Treasurer shall provide the Authority with evidence of City Council approval of said deviation; and that
3) The City Treasurer shall notify the Authority of any proposed amendments to the City of Sacramento's Investment Policy prior to said amendments becoming effective.
[^0]Ann Bailey, Chair

[^0]:    ATTEST:

    Tara Gandara
    Secretary to the Board of Directors
