This attachment will be released under separate cover.

"Come to Your Senses" Art Activation Overview

The "Come to Your Senses" art activation brought a vibrant, multi-sensory experience to downtown Sacramento, transforming 808 O Street into an inclusive space for creativity and community-building. Curated by CADA, this event catered to all, connecting art, community, and culture in innovative ways.

Key Features and Highlights:

1. Interactive Sensory Rooms

- Five unique rooms, each designed to engage participants' senses of touch, sight, sound, taste, and smell.
- Highlights include "The Breathing Tower" sculpture by Micah Kearns, offering a meditative space for mindfulness and a life-sized touchable screen that warped mandala images.

2. Collaborative Art Installations

• Visitors contributed to live art pieces and interactive installations, such as the "Wishing Wall," inspired by Rivane Neuenschwander's "I Wish Your Wish." Participants anonymously shared wishes, fostering a sense of connection.

3. Community Partnerships

- Partnered with **MusicLandria**, YMCA of Superior California, and others for a community-driven food, toy, and instrument drive, benefitting local families and youth programs.
- Contributions from artists Micah Kearns, Keia Kodama, Buddy Hale (MusicLandria), Mario Lopez (We Are Sacramento), and Gabriel Lopez, with lighting and projections by George Holden and Stephanie Moellman.

4. Supporting Emerging and Diverse Artists

• Showcased works by artists representing diverse communities, including Latino, African American, transgender, and senior citizen groups.

5. Community Outreach and Continued Impact

• Post-event, key pieces like "The Breathing Tower" and the mandala projection screen have found new uses in the community, such as at the Crocker Art Museum's **ArtMix** event and MusicLandria band showcases. Staff is looking into options for the "Wishing Wall" to continue within the community.

Attendance and Engagement Metrics

Approximately 1,000* visitors explored 808 O Street between November 2024 and March 2025, including MusicLandria and CADA-hosted events.

Additional Highlights

- MusicLandria recorded 848 attendees between 11/21/24 and 3/2/25. Of these, 228 individuals came exclusively for the art activation, while 620 people attended MusicLandia-specific programs and events, plus the art activation.
- MusicLandria hosted 15 events
- The Crocker Art Museum's ArtMix saw 750 attendees featuring the "Breathing Tower," nearly doubling the art activation's reach

*This total includes the 848 attendees reported by MusicLandria, attendees from CADA's grand opening of the art activation, the City of Sacramento Office of Arts and Culture Holiday Party, Mutual Housing's staff gathering, and a few other private events booked through CADA.

Demographics

Age Breakdown: 0–18 years (24%), 19–29 years (25%), 30–49 years (40.4%), 50+ years (10.6%).

Gender Distribution: Female (51.9%), Male (40.4%), Non-Binary (7.7%).

Racial Diversity: White (44.2%), Black/African American (15.4%), Hispanic/Latino (5.8%), Asian (6.7%), Native Hawaiian or Pacific Islander (4.8%), Mixed Ethnicities (18.3%), Other (1.9%).

Social Media Impact

 Posts tagging partners (MusicLandria, We Are Sacramento) generated between 36–78 likes each, with positive engagement and comments.

Website Engagement

• Senses916.com attracted over 1,700 visitors during the activation period, 75% from mobile devices.

Community Impact

The activation successfully cultivated a sense of belonging among Sacramento's diverse communities while supporting local artists and nonprofits. Attendees described the event as immersive, meaningful, and memorable, with many emphasizing its ability to foster connection and well-being.

Final Thoughts

"Come to Your Senses" illustrated the power of art to unify individuals through shared, multisensory experiences. It left a lasting imprint on attendees, strengthened community partnerships, and amplified Sacramento's local arts scene. Beyond its duration, key pieces and partnerships continue to enrich the community.

CADA can continue harnessing the success of such activations to expand community engagement and further support Sacramento's cultural vibrancy.

RE: Minutes of Quarterly Investment Meeting held via Zoom on January 30, 2025

Attendees Present: Stacy Hussey, John Colville, Katy Nguyen, Peter Colletto, Irene de Jong, and Patrick Zalasky

This meeting was held via Zoom, as will all subsequent meetings until further notice.

1) Cash Positions/Liquidity

The projected Pool A cash flow is adequate to meet expected obligations over the next six and twelve-month periods. If all non-City Pool A participants withdraw funds, the analysis shows an approximate \$546 million in excess cash for the next 6-months and an approximate \$718 million for the next 12-month period. Hence, cash availability to all pool participants is adequately addressed for the coming six and twelve months.

In compliance with the City's Investment Policy, investment staff continues to maintain a great deal of liquidity to pay the City's bills, including payroll and debt service, representing the bulk of the City's budget. Such liquidity is largely reflected in investments whose maturity dates match payroll and debt service liability due dates going 9 months into the future, plus the maintenance of substantial liquid reserves. The liability-matching strategy and liquid reserves provide a solid liquidity cushion to meet unexpected large expenditures and to provide the basis to make advantageous investments in longer term securities. As of the date of the investment committee meeting, the major payroll and debt service liabilities are funded with sufficient cash in pooled cash accounts, expected property and sales tax receipts, and cash generated by the maturity of specific investments through the end of October 2025.

The Targeted Ladder Asset strategy designed to cover the City's annual payment to CalPERS has now covered half of the monthly payments for the fiscal year. These investments line up maturity dates to cover significant cash needs that are outside of normal recurring expenditures, in this specific case, the City's annual payment to CalPERS. For the last few years, this payment was made in a lump sum at the end of July, which took advantage of the 3.2% discount offered by the state for paying in a single installment. Over the current fiscal year (July 2024-June 2025), these payments will be made monthly, since investment staff was confident it would be able to match maturing assets with yields in excess of the state's discount to the payment dates. When the ladder was completed, the yields on those assets saved the City in excess of \$1.8 million in comparison to making a lump sum payment and over \$5.1 million compared to monthly payments with no matching assets.

While considering the movement of interest rates over the next year, investment staff has decided to make the fiscal year 2026 CalPERS payment as a lump sum in July of 2026. The Federal Reserve is in a holding pattern with regard to policy, however, on the short end of the yield curve have come in from their highs of late 2023, when matching the monthly payments made it possible to gain yield above the offered discount (3.2%) for paying in a lump sum. Due to that, staff believe the discount CalPERS offers for a single lump sum payment would exceed the average yield that could be attained through building another ladder to make payments monthly.

2) **Performance of the Pools**

Investment staff updated the attendees on the performance of Pool A during the first quarter of fiscal year 2025. The earned interest yield of Pool A for October, November, and December was 2.85%, 2.84% and 2.73%, respectively. Monthly Pool A yields currently trail the 4.43% yield earned by the State Treasurer's Local Agency Investment Fund (LAIF) and the 4.19% yield earned by the Medium-Term Fund managed by the Investment Trust of California (CalTRUST). This is due mainly to the fact that those funds are able to maintain a much shorter duration than Pool A, which invested large amounts of excess cash (mainly COVID stimulus funds) in assets maturing in 2025 and 2026 while market yields were at historic lows. At the time these investments were made, rates across the Yield Curve were near zero and there was some discussion that very short-term yields could go negative. Pool A yields from the middle of 2020 through early 2023 outpaced LAIF and its California municipal peers due to this strategy. Yields have only recently been lagging as the effects of the inverted Yield Curve are fully being felt. Overall, for the period between March 2020 and December 2024, Pool A outperformed LAIF by approximately 20 basis points.

Between 2020 and the end of 2022, Pool A consistently outperformed LAIF and its municipal peers, primarily through investing government stimulus money in bonds that had very solid coupons in what was a near-zero rate environment across the yield curve. As further stimulus and spending bills were introduced at the federal level in 2021 and 2022, the yield curve inverted as inflation rose. The aforementioned investments suddenly became a drag on the pool as their maturities were still at least a couple of years away. Those investments will soon begin maturing and will allow investment staff to replace them with assets carrying coupons in excess of 4.0%, in most cases. The yield on Pool A should steadily increase and compare more favorably to LAIF as well as its municipal peers. Since these maturing assets will cover most cash obligations for the latter half of 2025 into the first half of 2026, excess cash over the next twelve to eighteen months will be available to purchase the best yielding offers from the highest quality issuers in the market, allowing investment staff to prioritize yield for the pool.

Pool A investments in cash and other short-term liquid issues represented 31% of the pool at the end of the quarter, which is in line with traditional pool construction. The cash yield on these investments was 4.03%, which is on a downward trend due to Fed rate cuts that have drawn down the front end of the yield curve. As expected, the Federal Funds Rate was cut by a full 1.0% in 2024. Core Investments, which are less liquid and generally have maturities further out on the yield curve (Corporate Bonds, Municipal Bonds, Agencies, etc.), had a cash yield of 2.04%. This is an improvement over prior quarters and reflects a steepening of the yield curve as the economy stabilizes following the shocks of Covid in 2020 and inflation that spiked in 2021 and still hasn't fully returned to the Fed's target rate.

As usual, investment staff will work to maintain the structure of Pool A with assets that meet the liquidity needs for all pool participants, while using high quality names to add yield when opportunities present themselves.

3) Bond Market Report; Economic Considerations

The Fed is in a holding pattern, as the economy has stabilized and found a bit of equilibrium, albeit with inflation still above the stated target of 2.0%. United States GDP for the quarter ending December 31 came in at 2.3%, which was below the previous quarter's 2.8% and missed estimates of 2.6%. Consumption remained strong through the holidays, although fewer goods were being produced. Government spending decreased significantly as Donald Trump won another term and Republicans won majorities in both houses of Congress. Although Republicans promised to cut

government spending, the government nearly always increases spending when one party controls both houses of Congress along with the White House.

Current inflation numbers are indeed sticky. CPI stayed below 3.0% but cannot quite get consistently below 2.5%. The labor market remains strong, and the economy has definitely stabilized over the past couple of years, so it is possible the Fed will consider whether 2.0% remains a realistic goal for the rate of inflation. If they are comfortable with a steady rate near the target, but not right at it, then rate cuts could be on the horizon.

Short-term yields on Treasuries (less than 12-months until maturity) leveled out after falling below 5.0% for the first time since 2022. They will continue to be the most sensitive to changes in the Federal Funds Rate, so the front end of the yield curve should remain between 4.20% and 4.40% until The Fed takes further policy action.

Yields further out on the curve are always much more volatile, as they are more sensitive to the news of the day and the moods of investors. The five-year Treasury increased over the quarter, as the economy stabilized, and the yield curve steepened into a more normal shape. Yields began the quarter at 3.56% and steadily rose between the election and the end of the year, ending the quarter at 4.38%.

Equity markets continue to advance, regardless of the news, be it economic or global. American equity markets have always been the best option in a world of uncertainty, and that has never been truer. Until there is a major economic shock in the United States, equity markets will maintain their strength.

As mentioned above, Donald Trump won another term in the White House. Markets reacted, but not as dramatically as they did following his electoral victory in 2016. His first term should be a solid guide for what the administration will prioritize economically. Tariffs are a popular topic, since the president likes to use them as a negotiating tactic. He, along with his advisors and nominees for cabinet/government posts, also has long spoken of rooting out government waste while making permanent the tax cuts of 2017. All of these things have been known and digested by markets, so it will likely take new and/or unexpected events or policies to move markets dramatically.

4) **Other business:** None

City of Sacramento Investment Pool A

CITY OF SACRAMENTO INVESTMENT POOL A

MONTHLY REVIEW – FEBRUARY 2025

STRATEGY

The Fund is invested pursuant to the objectives and requirements set forth in the City's investment policy. The three objectives of the investment policy, in order of priority, are (1) the preservation of capital by the investment in safe instruments, (2) the liquidity needs of the City and pool participants so such parties will have access to cash when they need it, and (3) the maximizing of current income while remaining consistent with the other more important objectives. The City's investment policy incorporates applicable provisions of state law including, among other things, the prudent person standard and California Code Section 53601 pertaining to eligible investments.

INTEREST RATE ENVIRONMENT

Uncertainty was the theme of February, as President Trump threatened to institute tariffs on all of our trading partners. According to the president, this was to ensure fairness in some cases and to coax particular behavior out of foreign leaders in others. Economists and policymakers are split on the impact the increased use of tariffs will have on the economy, with many believing the strategy will be inflationary, while many others believe it will spur growth amid a new age of American manufacturing. Inflation retreated for the first time since last fall, dropping to 2.8%. Meanwhile, the labor market slowed, as only 151,000 jobs were added in February, with prior reports being revised downward. As a result, the unemployment rate increased to 4.1%. Even though both indicators moved in The Fed's desired direction for the first time in a while, members of the board are indicating that they will remain patient until additional data proves that we are seeing the beginning of a trend, rather than a month that will prove to be an outlier. Consensus is that The Fed will be patient until the latter half of 2025, when they will implement two cuts of 25 basis points each. Consumers remain pessimistic, as the University of Michigan Consumer Sentiment Survey dropped again to 64.7. There has recently been no relief at the grocery store or gas pump, dampening the outlook of Americans. Short-term Treasury yields held in a narrow band, beginning the month at 4.28% and ending it at 4.29%. Longer maturities responded to the data on inflation, as the 5-Year Treasury yield began the month at 4.33% and gradually fell to 4.02% at the end of February. The investment team will pay close attention to both the actions and messaging of the Fed, while also monitoring market reactions to the policies of the federal government, along with current global events. Investment decisions will be focused on maintaining a portfolio built with high level names that will be stable no matter what domestic and global markets do over the next couple of years. As usual, extra emphasis will be placed on investing only in the companies that have the infrastructure and leadership to navigate through even the most unstable economic environments. When the opportunity arises, value will be added by targeting high quality investments that also provide attractive yields.

SHRA Investment Pool D

SHRA INVESTMENT POOL D MONTHLY REVIEW – FEBRUARY 2025

STRATEGY

SHRA Pool D is invested pursuant to the objectives and requirements set forth by the Department of Housing and Urban Development. The Annual Contributions Contract stipulates those funds be invested in accordance with the terms of a General Depository Agreement that is approved by HUD and requires SHRA to invest monies only in HUD approved investments. This process involves the timing of receipts and disbursements to assure the availability of funds to meet expenditures and to maximize the yield from the investment of temporarily surplus funds.

INTEREST RATE ENVIRONMENT

Uncertainty was the theme of February, as President Trump threatened to institute tariffs on all of our trading partners. According to the president, this was to ensure fairness in some cases and to coax particular behavior out of foreign leaders in others. Economists and policymakers are split on the impact the increased use of tariffs will have on the economy, with many believing the strategy will be inflationary, while many others believe it will spur growth amid a new age of American manufacturing. Inflation retreated for the first time since last fall, dropping to 2.8%. Meanwhile, the labor market slowed, as only 151,000 jobs were added in February, with prior reports being revised downward. As a result, the unemployment rate increased to 4.1%. Even though both indicators moved in The Fed's desired direction for the first time in a while, members of the board are indicating that they will remain patient until additional data proves that we are seeing the beginning of a trend, rather than a month that will prove to be an outlier. Consensus is that The Fed will be patient until the latter half of 2025, when they will implement two cuts of 25 basis points each. Consumers remain pessimistic, as the University of Michigan Consumer Sentiment Survey dropped again to 64.7. There has recently been no relief at the grocery store or gas pump, dampening the outlook of Americans. Short-term Treasury yields held in a narrow band, beginning the month at 4.28% and ending it at 4.29%. Longer maturities responded to the data on inflation, as the 5-Year Treasury yield began the month at 4.33% and gradually fell to 4.02% at the end of February. The investment team will pay close attention to both the actions and messaging of the Fed, while also monitoring market reactions to the policies of the federal government, along with current global events. Investment decisions will be focused on maintaining a portfolio built with high level names that will be stable no matter what domestic and global markets do over the next couple of years. As usual, extra emphasis will be placed on investing only in the companies that have the infrastructure and leadership to navigate through even the most unstable economic environments. When the opportunity arises, value will be added by targeting high quality investments that also provide attractive yields.

GLOSSARY OF INVESTMENT TERMS

90-Day UST Bill Average is the average cost of money incurred by the U. S. Treasury in their weekly sales of 90-day U. S. Treasury Bills and is considered a measure of the trend of short-term interest rates.

Average Daily Funds Invested designates the average daily amount of monies invested by the City Treasurer's Office during the reporting period.

CalTRUST Investment Accounts invests in fixed income securities for local agency investment pursuant to California Government Code Sections 53601 and 53635. A Board of Trustees supervises and administers the investment programs of the JPA. Four pooled accounts are administered within the program. 1) The BLF FedFund invests at least 99.5% of its total assets in cash, U.S. Treasury bills, notes and other obligations issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, and repurchase agreements secured by such obligations or cash. 2) Short Term account has a duration of 0-2 years, 3) Medium Term account with a duration of 1.5-3.5 years and 4) Long Term account with a target duration of 5-7 years (the Trustees have elected to defer the opening of the Long-Term account until the interest rate environment is more favorable for longer term securities.)

Federal Funds Average is the average cost of Federal funds in the U. S. Banking System and is considered a measure of short-term Federal Reserve economic policy.

Five Star Bank Community Fund is a money market account that is tied directly to community investment. Within this fund, 50% of the amount invested by the city must be used to support local business development. Reports are prepared semi-annually to keep the city informed on where this money is being invested. Returns on this account are tied directly to the month end rates published by LAIF.

Investment Cost Recovery Fee is a charge by the City Treasurer's Office to various funds managed which is intended to recover the direct investment costs incurred by the City's General Fund in permitting the City Treasurer's Office to manage those investment funds.

Investment Earnings represent, on an accrual basis of accounting method, all interest earned and any realized gains and losses during the reporting period. Investment earnings are apportioned to the various City Pool A internal and external participants.

Local Agency Investment Fund (LAIF) is an optional investment pool managed by the State Treasurers for local governments and special districts in California to participate in. The enabling legislation for the LAIF is Section 16429.1 et seq. of the California Government Code. The LAIF is part of the Pooled Money Investment Account (PMIA). The PMIA began in 1955 and oversight is provided by the Pooled Money Investment Board (PMIB) and an in-house Investment Committee.

Rate of Return (RoR) is the actual annualized rate of investment earnings on original cost, which takes into account the amortization of any premium or the accretion of any discount over a specified time period.

River City Bank Community Fund is a money market account that is tied directly to community investment. Within this fund, 50% of the amount invested by the city must be used to support local business development. Reports are prepared semi-annually to keep the city informed on where this money is being invested. Returns on this account are tied directly to the month end rates published by LAIF.

Safe Credit Union Community Fund is a money market account that is tied directly to community investment. Within this fund, 50% of the amount invested by the city must be used to support local business development. Reports are prepared semi-annually to keep the city informed on where this money is being invested.

Targeted Ladder Assets (TLA) are Assets with targeted maturity dates to meet specific needs that are outside of normal recurring expenditures.

Trust Funds - additional investment activity is conducted by the City Treasurer's Office for the Sacramento City Employees' Retirement System and certain of the separately invested Trust Funds of the City and third parties. Additionally, the City Treasurer's Office manages short-term investment for the Sacramento Housing and Redevelopment Agency (SHRA).

Weighted Average Duration measures the sensitivity of a bond's price to changes in interest rates. It is an elasticity measure and represents the percentage change in price divided by the percentage change in interest rates. A high duration measure indicates that for a given level of movement in interest rates, prices of securities will vary considerably.

Weighted Average Maturity calculates an average time to maturity of all the securities held in the portfolio, weighted by each security's percentage of net assets. The calculation takes into account the final maturity for a fixed income security and the interest rate reset date for floating rate securities held in the portfolio. This is a way to measure a fund's sensitivity to potential interest rate changes.

Yield to Maturity (YTM) is the total return anticipated on a bond if the bond is held until it matures, expressed as an annual rate.
