40. Claims and Disputes -

A. Definition

A Claim is a demand or assertion by one of the parties seeking, as a matter of right, adjustment or interpretation of Contract terms, payment of money, extension of time, or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Authority and the Contractor arising out of or relating to the Contract Documents. Claims must be made by written notice; must include documents supporting delay claim, including but not limited to evidence of all facts supporting alleged claim and current schedule showing impact of event or occurrence on critical path. The responsibility to substantiate Claims shall rest with the party making the Claim. This contract does not recognize the term potential claim.

B. Decision of Architect

Claims, including those alleging an error or omission by the Architect (or if no Architect then Engineer) shall be referred initially to the Architect for action as provided in paragraph 41. A decision by the Architect, as provided in paragraph 41(d), shall be required as a condition precedent to mediation of a Claim between the Contractor and the Authority as to all such matters arising prior to the date final payment is due, regardless of whether such matters relate to execution and progress of the Work, or the extent to which the Work has been completed. The decision by the Architect in response to a Claim shall not be a condition precedent to mediation in the event: the position of Architect is vacant; the Architect has not received evidence or has failed to render a decision within agreed time limit; the Architect has failed to take action required under paragraph 41(d) within thirty (30) calendar days after the Claim is made, forty-five (45) calendar days have passed after the Claim has been referred to the Architect; or the Claim relates to a Stop Notice Claim.

C. Time Limit on Claims

Claims by either party must be made within ten (10) calendar days after occurrence of the event giving rise to such Claim or within ten (10) calendar days after the claimant first recognizes the condition giving rise to the Claim, whichever is later. Claims must be made by written notice. An additional Claim made after the initial Claim has been implemented by change order will not be considered. The failure of the Contractor to provide the required Notice shall constitute an express waiver of any right to assert such claim, whether affirmatively or defensively.

D. Personal Certification of all Claims

PERSONAL CERTIFICATION OF ALL CLAIMS, must be submitted with all claims in the following format on Contractor's letter head:

I, _____, BEING THE _____ (MUST BE AN OFFICER) OF _____ (GENERAL CONTRACTOR), DECLARE UNDER PENALTY OF PERJURY UNDER THE LAWS OF THE STATE OF CALIFORNIA AND DO PERSONALLY CERTIFY AND ATTEST THAT: I HAVE THOROUGHLY REVIEWED THE ATTACHED CLAIM FOR ADDITIONAL COMPENSATION AND/OR EXTENSION OF TIME, AND KNOW ITS CONTENTS, AND SAID CLAIM IS MADE IN GOOD FAITH; THE SUPPORTING DATA IS TRUTHFUL AND ACCURATE; THAT THE AMOUNT REQUESTED ACCURATELY REFLECTS THE CONTRACT ADJUSTMENT FOR WHICH THE CONTRACTOR BELIEVES THE AUTHORITY IS LIABLE; AND, FURTHER, THAT I AM FAMILIAR WITH CALIFORNIA PENAL CODE SECTION 72 AND CALIFORNIA GOVERNMENT CODE SECTION 12650-12655, ET SEQ, PERTAINING TO FALSE CLAIMS, AND FURTHER KNOW AND UNDERSTAND THAT SUBMISSION OR CERTIFICATION OF A FALSE CLAIM MAY LEAD TO FINES, IMPRISONMENT AND/OR OTHER SEVERE LEGAL CONSEQUENCES.

E. Continuing Contract Performance

Pending final resolution of a Claim including mediation, arbitration, or litigation, unless otherwise agreed to in writing, the Contractor shall proceed diligently with performance of the Contract, and the Authority shall continue to make any undisputed payments in accordance with the Contract. Contractor hereby waives, for itself and all Subcontractors, any and all rights of rescission or work stoppage based on Authority's failure to pay for disputed items included in or to be included in any Claim.

F. Claims for Concealed or Unknown Conditions

1. Trenches or Excavations Less Than Four Feet Below the Surface.

If conditions are encountered at the site which are subsurface or otherwise concealed physical conditions, which differ materially from those indicated in the Contract documents, or unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract documents, then notice by the observing party shall be given to the other party promptly before conditions are disturbed and in no event later than twenty-one (21) calendar days after first observance of the conditions. The Architect will promptly investigate such conditions, and if they differ materially and cause an increase or decrease in the Contractor's cost of, time required for, or performance of any part of the Work, will recommend an equitable adjustment in the Contract sum, Contract time, or both. If the Architect determines that the conditions at the Site are not materially different from those indicated in the Contract documents and that no change in the terms of the Contract is justified, the Architect shall so notify the Authority and the Contractor in writing, stating the reasons. Claims by either party in opposition to such determination must be made within ten (10) calendar days after the Architect has given notice of the decision. If the Authority and the Contractor cannot agree on an adjustment in the Contract sum or the Contract time, the adjustment shall be referred to the Architect for initial determination, subject to other proceedings pursuant to paragraph 41.

Trenches or Excavations Greater Than Four Feet Below the Surface.

Pursuant to Public Contract Code §7104, when any excavation or trenching extends greater than four feet below the surface:

The Contractor shall promptly, and before the following conditions are disturbed, notify the District in writing, of any:

Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with the provisions of existing law.

Subsurface or latent physical conditions at the site differing from those indicated.

Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract.

The Authority shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work will issue a change order under the procedures described in the Contract.

In the event that a dispute arises between the Authority and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by Contract or by law, which pertain to the resolution of disputes and protests between the contracting parties.

G. Claims for Additional Cost

If the Contractor wishes to make Claim for an increase in the Contract sum, written notice as provided herein shall be given before proceeding to execute the Work. Each Claim for additional cost must include any claim for additional time associated with that claim and include all associated for both time and cost in their entirety. Prior notice is not required for claims relating to an emergency endangering life or property. If the Contractor believes additional cost is involved for reasons, including, but not limited to the following: a written interpretation from the Architect, an order by the Authority to stop the Work where the Contractor was not at fault, a written order for a minor change in the Work issued by the Architect, failure of payment by the Authority, termination of the Contract by the Authority, the Authority's suspension of the Work, or other reasonable grounds, a claim shall be filed in accordance with the procedure established herein.

H. Claims for Additional Time

1. Notice and Extent of Claim

If the Contractor wishes to make a claim for an increase in the Contract time, written notice as provided herein shall be given. The Contractor's claim shall include the cost associated with the extension and effect of delay on progress of the Work. In the case of a continuing delay, only one (1) claim is necessary. Any claim for time must include a fragmentary schedule as described in 39(h)(1)(a).

a. FRAGMENTARY SCHEDULE FOR EXTENSION OF TIME.

(i) The Contractor's fragmentary schedule shall show all additional schedule activities required by a delay and all changes to existing schedule activities made necessary by the delay. For each additional or changed activity, contractor shall identify the new duration, start and finish dates and predecessor-successor relationships.

(ii) Authority reserves the right to modify the fragmentary schedule to more accurately reflect the effect of changed work.

(iii) Failure to submit a fragmentary schedule will result in waiving contractor's right for additional time.

(iv) Failure to request a time extension in accordance with 40(c) will result in waiving Contractor's right for additional time.

2. Adverse Weather Claims.

If adverse weather conditions are the basis for a claim for additional time, such claim shall be documented by data substantiating that weather conditions were abnormal for the period of time, could not have been reasonably anticipated, and had an adverse effect on the Project Critical path.

3. No Reservation Allowed.

In no event will the Contractor be allowed to reserve its rights to assert a claim for time extension later than as required by paragraph 39(c) unless the Authority agrees in writing to allow such reservation.

a. Injury or Damage to Person or Property.

If either party to the Contract suffers injury or damage to person or property because of an act or omission of the other party, any of the other party's employees or agents, or others for whose acts such party is legally liable, written notice of such injury or damage, whether or not insured, shall be given to the other party within a reasonable time not exceeding twenty-one (21) days after first observance. The notice shall provide sufficient detail to enable the other party to investigate the matter. If a claim for additional cost or time related to this claim is to be asserted, it shall be made as provided in paragraphs 40(g) or 40(h).

41. Resolution of Claims and Disputes -

A. Architect's Review.

The Architect will review claims and take one or more of the following preliminary actions within ten (10) days of receipt of a claim: request additional supporting data from the claimant; submit a schedule to the parties indicating when the Architect expects to take action; reject the claim in whole or in part, stating reasons for rejection; recommend approval of the claim by the other party; or suggest a compromise. The Architect may also, but is not obligated to, notify the surety, if any, of the nature and amount of the claim.

B. Documentation if Resolved

If a claim has been resolved, the Architect will prepare or obtain appropriate documentation.

C. Actions if Not Resolved

If a claim has not been resolved, the party making the claim shall, within ten (10) days after the Architect's preliminary response, take one or more of the following actions: submit additional supporting data requested by the Architect; modify the initial claim; or notify the Architect that the initial claim stands.

D. Architect's Written Decision

If a claim has not been resolved after consideration of the foregoing and of other evidence presented by the parties or requested by the Architect, the Architect will notify the parties in writing that the Architect's decision will be made within seven (7) days. Upon expiration of such time period, the Architect will render to the parties its written decision relative to the claim, including any change in the Contract sum or Contract time or both. The Architect may, but is not obligated to, notify the surety and request the surety's assistance in resolving the controversy.

42. Submission of Claim to Authority

(a) Authority Review Of Unresolved Claims

To the extent that the Contractor disputes the Architect's Written Decision issued pursuant to paragraph 41(D) , or to the extent the Architect fails to issue a timely written decision, the Contractor may file a written claim, as defined by Public Contract Code section 9204(c)(1), with the Authority including reasonable documentation to support the claim. Upon receipt of the claim, the Authority shall conduct a reasonable review of the claim, and within a period not to exceed 45 days, the Authority shall provide the Contractor with a written statement identifying what portion of the claim is disputed and what portion is undisputed. The time in which the Authority must provide a written statement may be extended by

mutual agreement of the parties as specified by Public Contract Code section 9204(d)(1)(C). The Authority shall pay any undisputed portion of the claim within 60 days after issuance of its written statement.

(b) Meet And Confer Regarding Unresolved Claims

If the Contractor disputes the Authority's written statement issued pursuant to Paragraph 41(D) or if the Authority fails to issue a timely written response, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the Authority shall schedule a meet and confer conference within 30 days for settlement of the dispute. The meet and confer conference shall be attended by senior executives of the parties who have authority to settle the controversy. Within 10 business days following the conclusion of the meet and confer conference, the Authority shall provide the Contractor with a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. The Authority shall pay any undisputed portion of the claim within 60 days after it issues its written statement.

(c) Mediation

If the Contractor disputes, in writing, any portion of the Authority's written statement as issued under Paragraph 41(D), the disputed items shall be submitted to nonbinding mediation according to the provisions of Public Contract Code section 9204(d)(2), and any costs of mediation shall be allocated as set forth in that section. Upon receipt of a claim, the Authority and the Contractor may agree to waive, in writing, mediation.

(d) Failure to Respond or Pay

If the Authority fails to timely respond to a claim from the Contractor or otherwise fails to meet the time requirements of Public Contract Code section 9204, the claim shall be deemed rejected in its entirety. Additionally, amounts not timely paid in the manner required by Public Contract Code section 9204 shall bear interest at 7 percent per annum.

(e) Subcontractor Claims

If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against the Authority because privity of contract does not exist, the Contractor may present to the Authority a claim on behalf of the subcontractor or lower tier subcontractor pursuant to Public Contract Code section 9204(d)(5).

44. Attorney's Fees - In the event any action is brought by either party to this contract to enforce this contract or for breach of this contract or for a declaration of rights and duties of the parties to this contract, the prevailing party shall recover its cost of suit and attorney's fees incurred in such action from the other party.

45. Conflict – In the event of a conflict or inconsistency between the Specifications (General or Technical), the Drawings, and/or the Scope of Work portion of the contract documents, the documents shall govern in the following order of precedence: the Specifications, the Drawings, and the Scope of Work. Technical Specifications take precedence over general Specifications and detail Drawings take precedence over general Drawings. As between schedules and other information given on Drawings, the schedules shall govern. If an item is shown on any Drawing and not specifically included in the Specifications, the Drawing shall govern. Such conflict or inconsistency shall be brought to the attention of the Executive Director as soon as the conflict is discovered.

46. Fair Employment Addendum -

The Authority adopts this Fair Employment Addendum as its M/WBE contracting policy. It shall be included in all contracts and be applicable as provided herein.

A. Nondiscrimination and Enforcement

The provisions of the Part A of the Fair Employment Addendum shall apply to all contracts.

4. Remedies for willful violation:

(a) Authority may determine a willful violation of these Fair Employment provisions to have occurred upon receipt of a final judgment having that effect from a court in an action to which Contractor was a party, or upon receipt of a written notice from the Fair Employment and Housing Commission that it has investigated and determined that Contractor has violated the California Fair Employment and Housing Act and has issued an order, under Government Code Section 12970, which has become final, or obtained injunctive relief under Government Code Section 129704.

(b) For willful violation of these Fair Employment provisions, Authority shall have the right to terminate this contract either in whole or in part, and any loss or damage sustained by Authority in securing the goods or services hereunder shall be borne and paid by Contractor and by its surety under the performance bond, if any. CADA

Attention is directed to the provisions in Section 1777.5 (Chapter 1411, Statutes of 1968) and 1777.6 of the Labor Code concerning the employment of apprentices by the contractor or any subcontractor under him.

Section 1777.5, as amended, requires the contractor or subcontractor employing tradesmen in any apprentice occupation to apply to the joint apprenticeship committee nearest the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will also fix the ratio of apprentices to journeymen that will be used in the performance of the contract. The ratio of apprentices to journeymen in such cases shall not be less than one to five except where an exception is issued on one of the following conditions:

- A. In the event unemployment for the previous three-month period in such area exceeds an average of fifteen percent (15%), or
- B. In the event the number of apprentices in training in such area exceeds a ratio of 1 to 5, or
- C. If there is a showing that the apprentice craft or trade is replacing at least one-thirtieth (1/30) of its journeymen annually through apprenticeship training, either (1) on a statewide basis, or (2) on a local basis.
- D. If assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his life or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

The contractor is required to make contributions to funds established for the administration of apprenticeship programs if he employs registered apprentices or journeymen in any apprentice trade on such contracts and if other contractors on the public works site are making such contributions.

The contractor and any subcontractor under him shall comply with the requirement of Sections 1777.5 and 1777.6 in the employment of apprentices. Noncompliance with Section 1777.5 can result in substantial penalties under Section 1777.7.

Information relative to apprenticeship standards, wage schedules, and other requirements may be obtained from the Director of Industrial Relations, ex officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.
